## ABOUT ME

Highly motivated in learning and adapting new technologies. Currently, .NET Software Engineer, working on various ASP.Net MVC and ASP.Net Core MVC web applications and REST Services in .NET Core. Certified in developing and architecting ASP.Net (Core) applications since December 2017. Huge interest in C#, ASP.Net Core Web development and Azure Cloud architecting, as well as in mobile development.

## EDUCATION

### BS in Computer Engineering | University of Business Studies

10/2014 – 06/2017

During this period, as a school project, I have developed an internal web application for one of Bosnia's leading telecommunication companies, *Mtel*, which helps track and organize internal documentation.

## EXPERIENCE

### .NET Software Engineer | myTGA GmbH (Munich, GER)

06/2019 – CURRENT

We are developing and maintaining a custom Windows Application (*WPF*), built for complex calculations within the heating industry. Since the application is huge, with lot of complex modules, we use Telerik Controls in order to make the maintaining and future development easier. Our WPF and iOS applications as well as our web portal, are each tightly connected with ERP and use its information as a central server. These applications are then imported into tablets which workers use on construction sites to enter and automatically update the progress of the construction project at hand. The same projects are shared between all applications and are tied together in order to save lot of time and finances.

### .NET Software Developer | Deepscreen GmbH (Belgrade, SRB)

05/2018 – 05-2019

I was part of a team which was in charge of developing and maintain a complex CRM written in .NET Framework. Since our Clients were mainly of Swiss origin, the project languages used were German and English. The Client side of the CRM was written in HTML5 with jQuery, Angular 7, WEB API 2, and ASP.NET MVC.

### iOS Developer | Axelyos doo (Banja Luka, BiH)

07/2017 – 05-2018

I started an internship in August 2017, working on developing iOS Apps in SWIFT. After upgrading their main App on SWIFT 4, and doing some performance and stability improvements, building two more Apps

by myself, the CEO of the company decided to stop the internship and offer me a real contract in December as iOS Developer working on various of iPhone apps for International marketplaces (UK, USA, AUS).

## Web Developer | Sport77 LTD (Remote)

03/2014 – 2017

During this period, I have developed several websites in PHP, HTML5, and WordPress. Also, I built my first iOS App: Lose Fat with Yoga that is now in upgrading progress and in few days, the second version will be on the App Store that consumes REST Services built by myself in PHP.

## SKILLS

- iOS Development, SWIFT,
- WPF, UWP
- Web Development – C#, PHP, WordPress, HTML5, JavaScript, jQuery, ASP.Net MVC, ASP.Net MVC Core, Angular
- MongoDB, NoSQL
- REST Services – ASP.NET, ASP.NET Core
- MSSQL, MySQL LINQ, Entity Framework
- Azure
- GIT, VSO, Slack, Microsoft Teams

## CERTIFICATES AND ACHIEVEMENTS

**MCSD: App Builder** | Issued by Microsoft

12/2017

Earners of the MCSD: App Builder certification have demonstrated the skills required to build modern mobile and/or web applications and services. Earning this certification qualifies an individual for a position as an application developer.

[Click here for more information](#)

**MCSA: Web Applications** | Issued by Microsoft

12/2017

Earners of the MCSA: Web Applications certification have demonstrated the skills required to implement modern web apps. They are qualified for a position as a web developer or web administrator. To get this certificate I had to pass two exams:

- Exam 480: Programming in HTML5 with JavaScript and CSS3,
- Exam 486: Developing ASP.NET MVC Web Applications

[Click here for more information](#)

## LANGUAGES

- ENGLISH – Fluent: spoken and written (8/10)
- GERMAN – Good knowledge: speaking and writing (7/10 I have valid certificate TestDAF 3)

## HOBBYS AND OTHER INTEREST

- Fitness, Gym, Traveling
- Driving License: B,
- AI, Machine Learning
